

## MINISTRY GRANT REPORT

Name of organization: Created Women Inc.

Date of report submission: 2/24/2026

Final Report: 2026

---

Name of individual filling out Grant Report: Liana Perez

Title: Administrative Assistant

Email Address: grants@createdwomen.com

Phone Number: 813-769-9678

---

Date Grant funds were received: 29 April 2025

Grant amount received: \$100,000

Total grant amount spent to date: \$100,000.00

Grant amount remaining: \$0

---

Purpose of Grant (Please copy and paste from Page 1 of Grant Application submitted):

The purpose of this grant is to purchase two vehicles to support our therapeutic recovery house in Pinellas County and a new house in Hillsborough County. Additionally, the grant will help fund a community engagement specialist who will expand job placements, community service partners, and other community resources.

## **GRANT USE SUMMARY**

*Please answer all questions below as they pertain to your ministry and grant request. If a question does not apply, please enter "N/A" rather than deleting the question.*

1. Compare original objectives/timeframes with actual results. Explain any variances.

Our original objectives were to purchase two vehicles to support our therapeutic recovery house in Pinellas County and our new house in Hillsborough County, and to fund a Community Engagement Specialist position to expand job placements, community service partners, and other resources for survivors. These objectives have been met within the grant period. The vehicles were purchased and placed in service, and the Community Engagement Specialist began their work as planned.

2. Explain the specific ways that this grant has helped you to expand significantly or propelled your ministry forward. Please include specific examples.

This grant has significantly propelled our ministry forward by addressing two critical needs: transportation and community connection. With safe and reliable vehicles, our staff can transport residents to medical appointments, court dates, church, recovery meetings, and job interviews. This has reduced logistical barriers that often hinder survivors' progress.

In addition, our Community Engagement Specialist has expanded opportunities by developing new partnerships with local businesses and churches. This position has been instrumental in bridging our residents to the broader community, strengthening both recovery and discipleship.

3. Based on the measurable project goals and methods of evaluation on your original grant application (Question #12 on the Grant Application), how has this project measurably expanded an existing initiative or established a new initiative?

Based on our original goals, the project measurably expanded our initiatives in the following ways:

- **Transportation:** The two vehicles have already provided countless safe rides for survivors since being placed in service. This has directly increased residents' access to healthcare, employment, recovery activities, and community events.
- **Community Engagement:** The Community Engagement Specialist has successfully established new job placements, developed additional service partners, and connected residents with a wide range of community resources, strengthening long-term stability and support

4. How have the grant funds furthered evangelism and discipleship in your local community?

The Community Engagement Specialist has facilitated relationships with faith-based organizations, creating opportunities for survivors to connect with mentors who walk alongside them in both discipleship and life skills development.

5. What impact has the grant had on the population you serve? Your staff? The community?

- **Population served:** Survivors now have reliable transportation and expanded access to employment, healthcare, and discipleship opportunities—reducing stress and promoting stability.
- **Staff:** Staff report that the vehicles reduce scheduling conflicts, increase safety, and allow them to focus on relational and therapeutic care rather than logistical barriers. The Community Engagement Specialist has lightened the load on program staff by managing partnerships and placement opportunities.
- **Community:** Local businesses and churches benefit from partnering with Created, gaining valuable employees, volunteers, and service opportunities while becoming more engaged in anti-trafficking efforts.

6. What were the primary lessons that you and your staff learned from this grant project?

We learned that safe, consistent transportation is not simply a logistical tool but a lifeline that enables stability, discipleship, and independence. Additionally, having a dedicated staff member to engage the community has multiplied opportunities far more effectively than when these responsibilities were spread thin across staff.

7. Based upon current conditions, are there things that you would do differently in utilizing the grant award? If so, what? N/A
  
8. If the grant project is part of a larger campaign, please provide a status report on the campaign. N/A
  
9. If the project involved collaboration with other organizations, please comment on its effect on the project. N/A
